SUMMARY

Final-year B.Sc (Hons) Information Technology undergraduate at SLIIT with hands-on experience in software development and web application development. Skilled in Angular, TypeScript, Java, Spring Boot, MERN Stack, SQL, Git, and RESTful APIs. Strong interest in full-stack development and building scalable, user-focused applications. Seeking an Associate Software Engineer opportunity to contribute technical skills while growing as a software engineering professional.

PROFESSIONAL EXPERIENCE

Internship

[1 Year] 07/2025 – 07/2026

Cloud Solutions International

Internship — Cloud Solutions International (Saudi Arabia-based company, Colombo branch)

- 1. Mirth Connect** – Migrated Mirth Connect through Java 8 → 21 and rebuilt it as a standalone Maven-based application, eliminating legacy Ant and JNLP dependencies ,Technologies Used: [Java, Spring Boot, Maven, Ant]
- 2. VM Deployment Testing** – Validated deployments in isolated Vagrant- managed VMs before production rollout Technologies Used: [Vagrant]
- 3. Healthcare Monitoring Dashboard** – Built real-time healthcare monitoring dashboards with integrated Oracle and PostgreSQL data sources, containerized for consistent deployment ,Technologies Used: [Python, Streamlit, Oracle, PostgreSQL, Docker]
- 4. CI/CD Automation** – Automated CI/CD pipelines with webhook- triggered validation and deployment workflows, plus custom scripts to reduce manual checks Technologies Used: [Jenkins, Groovy, Python, Bitbucket Webhooks]
- 5. Angular Monorepo Migration** – Led R&D migration of a 300+ library Angular 6 application to Angular 12 via a custom-built monorepo architecture Technologies Used: [Angular, TypeScript]
- 6. MCP Tooling** – Built internal MCP tools enabling natural-language querying of Jira tickets and Bitbucket repo data Technologies Used: [Python, Docker, PostgreSQL]
- 7. AI Healthcare Chatbot** – Developed a PoC AI healthcare chatbot for patient data retrieval and health guidance Technologies Used: [Python, Docker, PostgreSQL, Streamlit]
- 8. DeriChat SDK Integration** – Built a Node.js/Express proxy to integrate a third-party chat SDK into an Angular dashboard, resolving CORS and auth challenges Technologies Used: [Angular, TypeScript, Node.js, Express.js]

SKILLS

- Programming Languages : Java , JavaScript , C, Python
- Web Development : React , Spring boot , Bootstrap , HTML , CSS, Tailwind CSS , Streamlit,Angular
- Databases : MySQL , MongoDB, Oracle
- Tools & Services : Git , Docker, Jenkins ,Jira ,Postman ,Kafka
- Testing & Automation : Playwright
- Soft Skills :Leadership Skills , Team working , Communication skills
- Other : Figma

PROJECTS

Final Year Research – Smart Landslide Early Warning and Prediction System *[Ongoing]* AI-powered landslide early warning system using multi-sensor IoT data and ML to generate real-time, multi-

level risk alerts with explainable AI reasoning. Technologies Used: [ESP32, MQTT, ThingsBoard, Python, Random Forest, XGBoost, LSTM, SHAP, TensorFlow Lite, Scikit-learn, Streamlit]

UNIMATE [Github] Full-stack university platform unifying campus marketplaces (housing, meals, laundry, second-hand goods) with role-based access for students, providers, and admins.

Technologies Used: [NextJS, NodeJS, MongoDB, Express] - **[Github]**

Resort Aurora Hotel Management System Hotel management system handling room reservations, spa bookings, guest profiles, and event scheduling with an intuitive, mobile-friendly UI.

Technologies Used: [React, NodeJS, MongoDB, Express, TypeScript] - **[Github]**

Smart Campus Operation Hub [Github] Centralized dashboard for monitoring campus energy usage, facility management, and resource allocation to improve operational efficiency.

Technologies Used: [Java, JavaScript, Spring Boot, HTML, CSS] - **[Github]**

Online Movie Ticket Booking System Web app for movie ticket booking with secure authentication, showtime browsing, and seat reservation.

Technologies Used: [HTML, CSS, JavaScript, PHP]

CERTIFICATIONS

Prompt Engineering Course -Udemy

Version Control Course - Udemy

Presentation Skills -Udemy

EDUCATION

B.Sc. (Hons) in Information Technology
Sri Lanka Institute of Information Technology
(Reading-Final year)

2023 – Present

St.Thomas College -Matale
G.C.E (A/L) | Engineering technology

2019 – 2021
